AutoTrim*Pro*

All-in-one trim tab control system

Introducing Bennett's new all-in-one, trim tab control system engineered for ease of use and exceptional performance. Packing a boatload of essential features into an easy-to-use, space-saving keypad, AutoTrim Pro lets you choose between automatic or manual mode to make your boating experience better than ever.

NEW

Auto Trim Tab Control monitors your boat's position and automatically adjusts your trim tabs to changes in vessel speed, sea conditions and shifting weight. The result – the best running attitude possible for your boat, all the time

Manual Tab Control with Automatic Override
Push anywhere on the "Bow Up" or "DN" buttons and you're in full manual control of the trim tabs

Trim Tab Position Indication
L.E.D. indicators equipped with adjustable light intensity alert you to the position and automatic activity of the trim tabs in real-time

One-touch Full Up and Full Down Buttons
Down for hole-shot, up for running in a following sea, or gliding into the beach when in manual mode

Automatic Tab Retraction
Retract trim tabs to the full up position when the boat's ignition is switched off, protecting tabs during storage and trailering

Actual Size Shown

Compatible with Bennett hydraulic or electric trim tab systems, and most non-Bennett trim tab systems.
