

# Integrated Helm Control

## Engineered for Ease of Installation

An attractive and user-friendly, stand-alone helm control without the need for an external control unit. The functionality and “brains” of the control unit are engineered directly into a single, space-saving, and simple-to-install keypad.

OBI9000E

For electric and hydraulic systems  
Reduce bow rise, plane faster, and correct listing

OBI9000H

- Convenient “All Up” and “All Down” buttons
- Trim tab position LEDs always show you where your tabs are
- Auto tab retraction (tabs retract up when the ignition is powered off)
- Easy-to-install single lock nut design
